

NOVETTA

FROM COMPLEXITY TO CLARITY

CLOUD ENGINEERING

Novetta deployed the first accredited C2S workloads for multiple agencies. Today, we are leading the development of the PaaS on top of C2S for the SAP community.

Novetta is an Advanced Tier Consulting Partner and one of the few companies worldwide to possess both:

- AWS Government Competency
- AWS Machine Learning (ML) Competency

SECURITY ENGINEERING

Novetta has successfully engineered (and obtained certification for) dozens of secure compartmented systems and applications, large and small, for customers in the DoD, IC and SAP communities under ICD 503 and NIST 800-53.

CYBER DATA ANALYTICS

Novetta's ElasticSearch practice focuses on full-scale cyber auditing and highly scalable, multi-petabyte big data analytics in the DoD, IC and SAP communities.

- Certified reseller of the Elastic Stack (Elasticsearch, Kibana, Beats, and Logstash)
- Premier provider of Elastic professional services for the DoD, IC and SAP communities
