

FULL-SPECTRUM CYBER

# CYBER & SIGINT

Comprehensive full-spectrum cyber operations and SIGINT solutions.

Cyber & SIGINT designs, engineers, implements, and supports comprehensive solutions for Intelligence Community and defense sector partners in support of their national security missions. We deliver mission-specific capabilities and unmatched technical expertise to solve our customers' highest mission problems.

We design and provide end-to-end solutions with a full understanding of the interaction between analyst, tools, analytics, and data.

## FUNCTIONAL EXPERTISE

### Analysis

- End-to-End
- Discovery
- Malware
- Network
- Forensic
- Vulnerability Assessment
- Reverse Engineering
- Radio Frequency
- Predictive
- Behavioral
- Enrichments

### Mission Engineering

- Cyber Tool Development
- Solution Frameworks
- Telecommunication Protocols
- System Design
- Digital Signals Processing
- Operations Support and Planning
- Computer and Information Systems Security
- Plans of Actions and Milestones
- Security Control Traceability Matrices
- Risk Assessment Reports

### Data Science

- Machine Learning / Artificial Intelligence
- Big Data Platforms
- Data Ingest
- Dataflow
- Query Syntax

## **AN ADVANCED ANALYTICS COMPANY**

Novetta delivers scalable advanced analytic and technical solutions to address challenges of national and global significance. Focused on mission success, Novetta pioneers disruptive technologies in machine learning, data analytics, full-spectrum cyber, cloud engineering, open source analytics, and multi-INT fusion for Defense, Intelligence Community, and Federal Law Enforcement customers. Novetta is headquartered in McLean, VA with over 1,000 employees across the U.S.
